Davey Tree Surgeons handle thousands of small orders

In 1931, Davey Tree Surgeons served as many clients as in 1930. Eighty per cent of these paid the Davey Company less than $100 each. While it is true that the list of clients includes most of the famous people in America and the larger estates, it is also true that a majority represents the average homes, and many institutions.

Davey Tree Surgeons live and work in your vicinity, within easy motoring distance of your home. There is no charge for traveling time, and no extras of any kind. You pay only for the actual service rendered on your property, plus the necessary materials.

It is not essential that you have a large estate, nor that you spend great sums of money for the care and treatment of your own priceless trees. These reliable experts will take care of the smaller operations with the same skill and fidelity that they use everywhere. You do not have to take chances with your trees. Davey men live near you and are easily available for the care of your trees, even though your requirements may be modest.

Saving trees is a highly specialized profession. There are no men anywhere trained like Davey men. They are highly expert in a practical sense and are scientifically educated. They have a professional attitude toward their work. Your trees need expert care in health and reliable treatment when ailing. Davey men do their work without guessing or experimenting. You will be pleased and satisfied with their service and its economical cost. Call the nearest branch office or write Kent, Ohio.

Among prominent persons and institutions served by Davey Tree Surgeons are the following:
